ACKNOWLEDGEMENTS

This entitled thesis “A Study on Capital Market Development in Nepal” has been prepared for the fulfillment of the requirement of Mater Degree of Business Studies (MBS).

Capital Market has become a global phenomenon at this time. It is crystal clear that Capital Market played a crucial role in the economic development of any nation having several vices. Investment in productive sector (Agriculture, Transport, Hydropower, Industry, Tourism, Mining etc.) through Bank and Financial sector is prevalent now which is a good sign in the development process of capital market and nation's economy. For the smooth functioning of the economic activities sound capital market is necessary. Although in a nascent stage Nepalese capital market has played a significant role in development activities. In coming years the responsibilities of capital market is also rapidly growing.

Research in any subject is a very complex matter. I also paid the great attention to accomplish this task. There are many people to remember at this time. I'm highly gratitude to Dr. Pushparaj Sharma, the head of the department of management, without his valuable guideline and suggestion I couldn't complete this paper. Mr. Prakash Thapa staff of the department also helped me heartily to complete this work. I'm highly indebted towards him. In computer setting Deep, Suresh, and Bidhya Tamrakar of Everest Computer Centre are highly thankful. My source of inspiration and motivation in the very crucial time, Dr. Baburam Bhattarai Prime minister and distinguished leader of UCPN (Maoist) always inspired me in every meet. My life partner Til Kumarr Chhetri, always inspired me to timely accomplish this paper, and other fellow-comrade's valuable cooperation is highly thankful.

At last, I express my gratitude to all well-wishers, supporters, and critics who helped me in every effort to my study, political and social activities.
