ACKNOWLEDGEMENT

I am pleased to present this dissertation to the head of faculty management, Shanker Dev Campus, Kathmandu, Tribhuvan University in partial fulfillment of the requirement for the Master Degree in Business Studies (M.B.S), which could enhance the capabilities of students in the field of research work.

I am highly grateful and indebted to my honorable supervisor **Lecturers; Meera Gauttam** and **Mr. Kiran Thapa**, Shanker Dev Campus for her/his guidance, encouragement & possible help in the smooth conduct of this study. At the end of this work, they provided me unflinching encouragement and support various ways. Their educationist intuition becomes a constant oasis of idea and passions in finance, which exceptionally inspire and enrich my growth as a student and a researcher. Without their guidance and persistent help, this work would not have been possible. Therefore, I would like to express my sincere gratitude to both Gurus.

I would also like to thank to all the teachers and staffs of Shanker Dev Campus and **Prof. Dr. Kamal Deep Dhakal**, Chief of the Research Department for their encouragement, inspiration, valuable comments and special guidance on the preparation of this study. Thanks are also due to NRB, RBB, NBL, NABIL, HBL & KBL and Tribhuvan University for providing necessary suggestion to accomplish the dissertation.

Finally, I cannot remain without thanking to my dearest family members; father Sahadev Dhimal and mother Patu Dhimal, and my sisters and brothers whose regular inspirations and valuable help are the secrets of my success. Also, I extend my warm thanks to my friends for their continuous suggest and support during the entire period of the study.
