ACKNOWLEDGEMENTS

I express my profound gratitude to my supervisor Associate Professor **Iswor Raj Lohani** and Mr. **Rabindra Bhattarai** for advice and encouragement to complete this study.

I am very much thankful to all my friends and especially to Mr Krishna Prasad Ojha and my wife Mrs. Chandani Koirala Bhattarai for their kind advice, support and motivation to finish the research for their contribution in bringing this research in this form in time.

I also owe an indebtedness to all reputed authors whose writings have provided me the necessary guidance and invaluable material for the enrichment of my research work in all possible ways. My thanks also go to the individuals and institutions that generously provided required information to me.

I am equally thankful to all those personalities who are directly and indirectly involved conducting this research and are associated with me in different capacities for this help, suggestions and encouragement. I am grateful to many individuals and institutions whose words have contributed to my understanding whether or not they are identified here or not.

Needless to say 'to err is human' and I cannot to the expectation. For any remaining error in the calculation and the description reported in this dissertation are, of course, entirely my responsibilities. I hope the possible errors would be covered by the subsequent studies in this field in this future.
