ACKNOWLEDGEMENTS

In this profound hour of happiness I would, first of all, express my sincerest gratitude to my respected teacher Dr. Sushil Bhakta Mathema for providing me scholarly suggestions, valuable remarks and invaluable guidance, without whose companionship my thesis would not have come to this form of completion.

My true reverence also goes to Prof. Dr. Dev Raj Adhikari, Head, Central Department of Management and Prof. Dr. Upendra Koirala, Vice Chairman of HSEB for their words of encouragement. I owe the highest level of gratefulness to my lovely parents and my sisters without whose perennial support and encouragement my dream of deserving Master's Degree would never have come true. My sincere thanks goes to my bosom friends Anjan Adhikari, Kailash Rai, Mahendra Rana, Kamal Gyawali who helped me in every step of research mentally, if not physically.

Last, but not the least, I am grateful to all my respected teachers, Administration staffs of Central Department of Management, respondents, colleagues, for their continuous support and encouragement. My special thanks goes to Academic Computer Link Kirtipur which assisted to me in the computer work of this thesis.
