## **ACKNOWLEDGEMENTS**

This dissertation on “CAUSES AND CONSEQUENCES OF DRUG ADDICTION : A CASE STUDY FROM SURKHET VALLEY, NEPAL” has been prepared as a part of the requirement of the Master of Arts degree in Sociology offered by Tribhuvan University. At the very beginning I would like to extend my sincere gratitude to Prof. Dr. Padam Lal Devkota without whose support and guidance this work would not have been completed. I would like to thank him for his valuable suggestion, supervision and precious time provided me during the study period. My sincere thanks are also extended to the coordinator and the teachers of central Department of Sociology/Anthropology, Kathmandu. Their continued support and encouragement have been greatly significant in the completion of this study.

I am equally thankful to my friends who have been great source of encouragement throughout my study period.

I am, greatly indebted with Bhairav youth empowerment centre surkhet, SAAS Nepal Rehabilitation Centre and paribartan rehabilitation centre for helping me to provide insight and respondents. I am also extremely thankful to all the informant drug users who provide necessary information for my study.

I wish to express my deep sense of gratitude to Ganesh Acharya for his valuable and constant inspiration and encouragement during the study period.

Lastly, my deepest sense of gratitude goes to my family and parents, whose affection, encouragement and support helped me to reach this stage.
