Department of Economics

LETTER OF RECOMMENDATION

This thesis entitled “An Econometric Analysis of Potato Production in Hemja, Kaski, Nepal” prepared by HimaLalParajuli under my supervision. I hereby recommend this thesis for the approval by the thesis committee.

Department of Economics

(APPROVAL SHEET)

We certify that the thesis entitled “An Econometric Analysis of Potato Production in Hemja, Kaski, Nepal” submitted by HimaLalParajuli to the Department of Economics, Prithvi NarayanCampus, Pokhara, Faculty of Humanities and Social Science, Tribhuvan University, in partial fulfillment of the requirements for the degree of Master of Arts in Economics has been found satisfactory in scope and quality. Therefore, we accept this thesis as a part of the said Degree.

Thesis Committee

.....

Prof. Deo Narayan Sutihar

Head

Department of Economics

.....

Prof. Dr. Vikash Kumar K.C.

External Examiner

Mahendra Ale

Lecturer

Thesis Supervisor

Date: 1st April, 2019

ACKNOWLEDGEMENT

I would like to express my cordial and profound gratitude to Mahendra Ale, Lecturer, Department of Economics, Prithvi Narayan Campus, Pokhara whose substantial encouragement, creative guidance and fruitful co-operation helped to complete this thesis.

I am thankful to Prof. Deo Narayan Sutihar, Head of the Department of Economics, Prithvi Narayan Campus, Pokhara for his valuable suggestions and co-operation during the writing and analysis of the data.

I am proud to thank all farmers and people of Hemja area to whom I visited in course of my field visit and data collection.

Finally, I express my special thanks to Sushil B.K., Gokarna Karki and Ambika Bhattarai for their excellent job of computer typing and setting of this thesis.

Himalal Parajuli

Roll N: 71/ 2069

Date: 26th March 2019.

TABLE OF CONTENTS

	Page No
Acknowledgement	III
Table of Contents	IV
List of Tables	VI
List of Figures	VII
List of Abbreviations/Acronyms	VIII
CHAPTER 1. INTRODUCTION	1
1.1 Background	1
1.2 Statement of the Problem	2
1.3 Objectives of the Study	2
1.4 Hypothesis of the Study	2
1.5 Significance of the Study	3
1.6 Limitation of the Study	3
1.7 Organization of the Study	3
CHAPTER 2. REVIEW OF THE LITERATURE	4
2.A Theoretical Framework	4
2.1 Production Function	4
2.2 Types of Production Function	5
2.3 Elasticity of Production	9
2.4 Returns to Scale	9
2.5 Isoquants	11
2.6 Iso-Cost Line	12
2.7 Marginal Physical Product of Inputs	13
2.8 Marginal Rate of Technical Substitution	14
2.9 Isoclines	16
2.10 Least Cost combination of the Factors	17
2.B Review of Related Studies	19
2.C Research Gap	22
CHAPTER 3. RESEARCH METHODOLOGY	24
3.1 Study Area and Population	24
3.2 Research Design	24
3.3 Sampling Procedure	24
3.4 Data Collection Procedure	24
3.5 Specification of the Variables	25
3.6 Coefficient of Multiple Determination	26

3.7	The Adjusted Coefficient of Multiple Determination	26
3.8	Significance Test of the Regression Equation	26
3.9	Significance Test of the Regression	27
3.10	Specification of the Models	27
3.11	Hypothesis Testing	28
3.12	Procedure of Data Processing	29
CHAPTER 4. DATA ANALYSIS		30
4.1	Descriptive Analysis	30
4.2	Multiple Regression Analysis	30
4.2.1	Models	30
4.3	Product Isoquants, Marginal Rate of Technical Substitution and Isoclines	41
4.4	Least Cost Combination of inputs	43
4.5	Output Elasticity and Returns to Scale	45
4.6	Average Inputs and Output	46
4.7	Marginal Physical Productivity	47
CHAPTER 5. SUMMARY AND CONCLUSIONS		50
5.1	Summary	50
5.2	Conclusion	53
5.3	Recommendations	54
APPENDIX		55
A.	Input and Output of Potato Production	
B.	Interview Schedule	
BIBLIOGRAPHY		62

LIST OF TABLES

Tables	Page No:
4.1 Marginal Rate of Technical Substitution between Manure on Fertilizer and Fertilizer on Manure	42
4.2 Least Cost Combination of Inputs	44
4.3 Output Elasticity and Returns to Scale	45
4.4 Average Inputs and Output	46
4.5 Marginal Physical Productivity	47
4.6 Comparison of Elasticity Coefficients, Marginal Physical Productivities and Marginal Rate of Technical Substitution and Average Output Between all Upland and Lowland	48
4.7 Comparison of Elasticity Coefficients, Marginal Physical Productivities and Marginal Rate of Technical Substitution, and Average Output between Those Farmers Who Are Using Fertilizers in Both Low & Upland & Those Farmers who are Not Using Fertilizers in Both Low & Upland	49
5.1 Regression Constants and Coefficients	50
5.2 Multiple Coefficient of Correlation (R), Coefficient of Determination (R^2) and F- Values	51
5.3 Production Function	51

LIST OF FIGURES

Figures	Page No:
2.4 Returns to scale	13
2.5 Isoquants	14
2.6 Iso-cost line	15
2.9 Isocline	19
2.10 Least Cost Combination of Inputs	20
4.1 Potato Isoquants	54
