ACKNOWLEDGEMENTS

The cultural construction of Nepali society is shaped by Hindu theology, which advocated and promoted patriarchal attitudes and practices that exclude women from a variety of functions. This has resulted in gender stereotypes where women's role as unpaid productive and reproductive labour is assigned negligible power or control over economic resources. Therefore, the active and meaningful participation of women in all spheres of daily lives is the felt need of today as well as the rights and opportunities of women to fight against the poor plight of human life and society. So, the women should be empowered providing the appropriate rights and opportunities. Women's empowerment is the crucial aspects of the development process of society because until and unless the women are empowered the society cannot go ahead in a progressive way. There will be neither peace nor brotherhood. Therefore the empowerment process should be given top priority

First of all I would like to thank I would like to express my gratitude to my Campus Chief and supervisor Mr. Guru Prasad Subedi for his guidance, valuable suggestion comment and encouragement in completion of this entire study. I would be thankful to the all respondents who co-operated kindly and answered all my questions without any hesitation. At this moment I cannot forget teaching and non-teaching staffs, Kumarwanti Multiple Campus, Nawalparasi, especially head of department and faculty members, Department of Sociology. who inspired me by showing keen interest in my work. My dear parents deserve my deepest regard for their continuous great effort and bearing conscientious responsibilities to facilitate my academic endeavor. I would like to thank my friends for valuable suggestion, continuous encouragement and help throughout the thesis work.

My appreciation and sincere thanks go to the key informants and respondents who answered the questions regarding the research. Needless to say, I apologize for any errors committed in this work.
