ABSTRACT

The Study on the Knowledge, Attitude, and Practice towards abortion was carried out by collecting Urlabari Multiple Campus Urlabari VDC. The respondents were female students of +2 levels between ages 15 to 25 years. The main objectives of the research was to explore the level of Knowledge Attitude and Practice towards abortion among late adolescents girls.

Among the total 110 respondents, 89.10 per cent reported that they have knowledge on abortion and they have positive perception. The main sources of knowledge on abortion is friends. Most of the respondents 95.46 per cent reported that they have not applied method of induced abortion and just only 4.54 per cent reported that they have used method of induced abortion. Some of them they have suffering from complication of post abortion. Private clinic is the main place of abortion performance. One respondent said that in her neighbors one women was died from complication after abortion.

ACKNOWLEDGEMENT

Many individuals made creation of this dissertation work possible personally and professionally.

Firstly, I would like to express my acknowledgement to my Supervisor Associate Professor **Bhesh Nath Sapkota**, Head of the Department of Population Studies, Padma Kanya Multiple Campus , Bagbazar , for his proper guidance and constant inspiration.

My sincer gratitude goes to External Supervisor Associate Professor **Rabindra Bhattarai**, Head of the Department of Population Studies, Patan Multiple Campus, Patan , for his proper guidance and constant inspiration.

I am greatly indebted to those people studying in Uurlabari Multiple Campus for giving their support and Campus unit.

I am equally indebted to my friends and colleagues for providing encouragement throughout my study and advices on research work.

I would like to express my deepest gratitude to my parents Prama Nand/ Mina, brother Hemu and my fan Rajesh Shakya for their continuous inspiration and support to every piece of my work. . I would like special thanks to my brothers Uttam Shakya and Umesh Panday.

Lastly, I owe my sincere thank to all those who have contributed directly and indirectly during the study.

Manju Kumari Sharma

TABLE OF CONTENT

CONTENT	PAGE
CHAPTER I	
INTRODUCTION.....	1
1.1 General background of the study.....	1
1.2 Statement of the problem.....	3
1.3 Objectives of the research.....	4
1.4 Research questions.....	5
1.5 Significance of the study.....	5
1.6 Research Gap.....	6
1.7 Limitation of the study.....	6
1.8 Operational definition.....	7
1.9 Organization of the study.....	8
CHAPTER II	
REVIEW OF THE LITERATURE.....	9
2.1 Status of abortion in global context.....	9
2.2 Status of abortion in national context.....	14
2.3 Variables identified.....	20
2.4 Conceptual frame work.....	20
2.5 National Policies and Programs.....	22
CHAPTER III	
RESEARCH METHODOLOGY.....	23
3.1 Research design.....	23
3.2 Sampling procedure.....	23
3.3 Techniques of data collection.....	24
3.4 Procedure of data analysis.....	24

CHAPTER IV

SOCIAO- ECONOMIC CHARATERISTIC.....	25
4.1 Age.....	25
4.2 Caste/Ethnicity.....	26
4.3 Religious.....	26
4.4 Source of family income.....	26
4.5 Marital status of women and Age at marriage.....	27
4.6 Education level of husband.....	28
4.7 Family size.....	28

CHAPTER V

PRESENTATION AND ANALYSIS OF DATA.....	29
5.1 Knowledge on various aspects of abortion.....	29
5.1.1 Knowledge on abortion.....	29
5.1.2 Knowledge on Abortion by age.....	31
5.1.3 Knowledge on abortion by family size.....	31
5.1.4 Knowledge on Abortion by caste/ ethnicity.....	32
5.1.5 Knowledge about the methods of abortion.....	33
5.1.6 Knowledge about the causes of Abortion.....	33
5.1.7 Knowledge about consequences of unsafe abortion.....	34
5.1.8 Knowledge on legal status of abortion.....	35
5.2 Attitudes towards abortion.....	36
