ACKNOWLEDGEMENT

This thesis entitled “DECISION MAKING OF WOMEN IN FAMILY PLANNING ~ has been written as a requirement for MA Sociology. This study is based on facts collected from patients of Rapti Sub-Regional Hospital Dang. It would have been impossible without the support of various people who have helped me in one way or other to complete this study.

I would like to express my profound gratitude to my respected teacher Dr. Sandhya Basnet who as a supervisor gave me her valuable time and guided me to complete this study. My sincere thanks goes to my teachers of Department of Sociology/Anthropology for guiding me as students.

All those without whom my study will not have completed deserve special thanks. These are all my respondents despite long queue gave their valuable time to complete my schedule. I am also thankful to all the staff of Rapti-Regional Hospital for allowing me to conduct the study. My special thanks goes to my father Mr. Bhanu Gautam and my mother Mrs. Harimaya Gautam all my family members who are the sources of inspiration for me to complete this thesis. I am grateful to my brother Mr. Gyanu Adhikari and Sister-in-law Mrs. Erisha Suwal who always support me to complete this study the earliest and also edit my thesis. My special thanks to my friend Mr. Pushpa Hamal for his immense help in editing my thesis and who had always encouraged me to finish this study. Also my sincere thanks to my friend Mr. Suresh B.C. for typing setting and printing of this thesis.
