## **Acknowledgement**

While preparing this dissertation, various variables have contributed to me. Initially, I am so much grateful to the Central Department of Sociology/ Anthropology, TU, Kirtipur; from where I got an opportunity to explore myself as a researcher. Similarly, I owe to the head of the department Prof. Dr. Om Gurung, whose overall administrative and academic counseling has made this department what it looks like at present. Similarly, I am in great debt to my research guide Mr. Madhusudan Subedi. Every now and then, he has helped to foster my creativity and has guided me from the initial phases like preparing proposal, designing tools for data collection and even to analyze, draw conclusion etc. Therefore, without his technical guidance, this project would not have been completed by now. In the same way, I owe to Mr. Tika Ram Gautam, my Guru of the department for his rigorous observation of my dissertation and priceless comments on it. Additionally, I owe to all my teachers and staff of this department as a whole.

Most importantly, I would like to thank both sampled schools of Chautara VDC. I owe to sampled students / teachers and principals of both schools for providing me of data. A special thanks to students who get back the questionnaire the next day and to teachers for their prompt reply during interview. Similarly, I would like to thank the record section of DEO, Sindhupalchok. I would like to express my gratitude to my brother Mr. Janardan Ghimire, Associate Professor of Central Department of Education, Kirtipur, whose inspiration on my education and research activities like this is immense. Without his assistance, I would not remain here as a researcher and a civil service holder. Last but not least, Mrs. Lila Devi Gautam (Ghimire), my wife also assisted me on providing me with authentic materials on this area. Her dissertation on sociology five years back assisted me to cope up with this vast area of study, Social Science. I would like to thank her for support.

Thank you all who assisted me to come to grip with this research.
