ACKNOWLEDGEMENTS

This thesis report was prepared as a partial fulfillment of the MBS program of Tribhuvan University. The research project involves conceptualizing, working, implementing and writing up a report, which extends knowledge in the subject area under investment. This assignment thus aims to develop knowledge, skills and attitudes necessary for conducting of individual research at a level, which will make a distinct contribution of knowledge of the student. Therefore, I am thankful to Tribhuvan University to make this assignment as a compulsory part of the MBS program. Similarly, I am indebted to every person who has helped me in any way to conduct my work and to prepare this thesis report.

I would like to offer my sincere gratitude to my respected supervisor Lecturer Rita Maskey, Shankar Dev Campus, Tribhuvan University, Kathmandu for her constant encouragement, guidance and valuable supervision at every stage of my work. This study would not have been materialized in the present form without her incisive observations and intellectual direction in the course of completion.

My thanks also goes to all the respondents who have helped me to provide valuable information about their perception towards Profit Planning, without whom the research work might not have been possible.

I would like to thank my family members for their valuable suggestions, continuous encouragement and help through the research work.

Sujita Dangol
