ACKNOWLEDGEMENTS

This thesis entitled “The Directives of NRB in Mainting Capital Adequacy Ratio and Its Impact (A Case Study of Nepal Industrial and Commercial Bank Limited)” has been prepared in partial fulfillment for the Degree of Masters of Business Studies (MBS).

In the course of preparing my partial fulfillment, many more person’s help and co-operation is needed from different sectors .However, it will be matter of injustice if I forget the names of those personalities whose valuable suggestions and co-operation escorted to complete this thesis.

First and foremost, I would like to offer special thanks to Ass. Prof. **Ruchila Pandey** of Shanker Dev Campus for her proper supervision and suggestions. I would like to thank Mr. Rajesh Raj Gautam, Manager, Nepal Industrial and Commercial Bank Limited for his immense co-operation for providing me the necessary data during the research work of this thesis. Also, I would like to thank Mr. Ajaya Luitel who encourage me to write this thesis on Capital Adequacy norms and its impact by providing me the relevant information and data, which helped me preparing this thesis study. Thanks to all of them.

I could not remain without thanking to my teachers and lecturers, who all helped me during my study of MBS and during preparation of this thesis study.

It was a novel experience of doing a thesis work, which certainly helped me to gain deep knowledge in the subject. But accomplishment of the objective was not easy. The foremost difficulty was the scarcity of adequate data and information, which I experienced as the most difficult work during any type of research study in Nepal. Nevertheless, it was pleasant feeling to accomplish the thesis finally.

Santosh Pandit
