ACKNOWLEDGEMENT

This thesis has been prepared for partial fulfilment for the Master of Business Studies (MBS). On the purpose of preparing this thesis work,, it had provided me an opportunity to convert my conceptual knowledge into practical one. This study shows a true picture of liquidity and profitability position of Everest Bank Ltd., Nabil Bank Ltd., Nepal SBI Bank Ltd., and Kumari Bank Ltd. I have tried a great deal to present the subject matter in a most simple and easily understandable form. I believe that this thesis will be useful to the students and researcher to grasp the basic knowledge of liquidity and profitability analysis of commercial banks.

At the very outset, I would like to express deep sense of gratitude to Tribhuvan University that it has given us an opportunity to prepare thesis for our career development.

I would like to express my profound appreciation and gratitude to Prof. Dr. Khagendra Acharya and my supervisor Prof. Dr. Yadav Raj Koirala for their active guidance, comments, suggestions, and encouragement in conducting this thesis.

My heartfelt thanks go to my family and colleagues for their continued support for the completion of this thesis. I would like to thank librarian sister who coordinated me in providing necessary information by facilitating the availability of different books, unpublished thesis and information.

I am especially thankful to my friend Mr. Dipen Shrestha for computer work and designing. And last, I would like to express sincerely thanks to all those who has helped me directly or indirectly to bring this stage of completion.

I also apologize for the weakness in my thesis.

Thank you,
