Acknowledgement

Experiencing the interaction in meeting and getting to know about different people's culture, is the opportunity I have received from my related work to the tourism of Lakeside. Gradually, my work has helped me in developing the sincere interest in cultural, literary, and philosophical studies throughout the last years.

Especially during my transition from Bachelors to the Master's degree I have put effort in order to investigate the process of meaning making and cultural exchange within the tourism sector. Writing my dissertation has given me the ideal opportunity to apply my interest to practice and to a familiar environment in the choice of the research location.

There have been many people who have made valuable contributions to this work. For their continuous encouragement, guidance, support and tolerance, I wish to express my sincere, heart-felt appreciation.

Overall, there are immense supports I have received for people around. Foremost, it is my sincere thanks to Department of Sociology and Anthropology of P.N. Campus, Pokhara for enhancing and embellishing me with the required research associates. Especially, I am indebted to my supervisor, Netra Narayan Poudel for the exceptional assistance and inspiration that has guided me throughout this research.

Encouragement, influence, and consistent positive pressure has been needed; this is not possible without the family. In this regards I owe my family much more than I could probably express here. To my wife, Shila, who did more than her share of the worrying, parenting and working during my physical and mental absences. To my parents, grandparents, siblings and in-laws for their endless encouragement and support there is no other choice than bowing my head. They have been great examples to me and to them I will always be indebted. On top of this my cousins, Santosh and Rajib, Sisters Sangita, Srijana, Sima and Masayo Kiyota Dolan cannot be missed in any of the moments that there have been encouraging me for every bit of effort needed. Finally, for the names I have missed but are always in my heart for their immense support, I sincerely request their forgiveness.

Samir Baral
