ACKNOWLEDGEMENTS

Researching complex and sensitive topic is always challenging and difficult. Researching the protection of children in a context of social conservatism is always a challenge. Without the interest, support, assistance and participation of a number of people, it would not have been possible to undertake the research and to prepare this report. I owe them all a sincere debt of gratitude.

Special thanks must also go to those key informants who provided important information for this study and often faced difficult questions from the research. I even would like to thank to the UNICEF, PLAN Nepal and tdh for their supportive role and assistance.

I would like to express my gratitude towards my Supervisor Mr. Bipin K Acharya for his kind cooperation, valuable comments, suggestions and encouragement which helped me in completion of this study. My due respect goes to Department of Sociology, Patan Multiple Campus, and Tribhuvan University in stimulating suggestions and encouragement that helped me to make it happen.

I would like to thank my school Sudesha High School (especially the principal: Mr. Madhu Lohani) including AIMS School (especially to its principle; Mr. T.R. Dhakal), all the teachers and students who contributed me providing their valuable information for completion of this thesis.

And at last, My special thanks goes to my family (especially to Rita Sapkota) who provided me patience and valuable ideas in completion of this thesis.

Yog Raj Sapkota
