ACKNOWLEDGEMENT

This research paper is made possible through the help and support from mathematics teachers of M.Ed. and other teachers from education department. So, I would like to express my heartfelt gratitude to all the teachers who have given constructive and valuable suggestions during the completion of this report.

At first, I would like to thank my thesis supervisor Mrs. Sarala Luitel for her heartily support, continuous guidance and encouragement in the preparation of this thesis. She kindly, read draft of thesis and provided me guidance in every step from setting objectives to final draft. This thesis is only possible with her sincere and dedicated help and support.

Secondly, I would like to thank to Mr. Abatar Subedi, For Head of Mathematics Education Department, Prof. Hari Prasad Upadhayay, and all the respected Professors, Readers and lecturers of Department of Mathematics Education, FOE, T.U. for their suggestions and encouragement to complete this thesis.

Finally, I am thankful to my family who assisted me in completing this thesis and all my friends for their kind co-operation. At last, I would to give thanks to Prakriti Photocopy Center, Kirtipur for helping me to edit and print this thesis paper.

ABSTRACT

The present study “**Opinion of Teachers towards Semester System in Mathematics Education**” is carried out to find the opinion of teachers towards semester system and problem of implementation of semester system in mathematics education. This study helps its stakeholders for the effective implementation. The research is prepared on theoretical and conceptual framework. The researcher selected mixed approach, sequential and exploratory in design. The research was carried out from all the teachers of mathematics education and other faculties teachers of mathematics education. Data were analyzed qualitatively as quantitatively. Questionnaire and interview guideline were used as tool for the study of this research. In Questionnaire mean score and percentage of each statement were calculated to determine the teacher’s opinion towards semester system. If mean is less than 3 (less than 60%) , the given statements show there is problem in implementation of semester system. Also, interview from four teachers of mathematics education department. The collected information were systematized and analyzed descriptively.

The result of the study shows that, teachers have positive opinion towards the semester system. Teachers use different set of activities, continuous evaluation is carried out. The semester system is more efficient than annual system.
