Acknowledgements

This is an attempt to present the comparative analysis of financial performance of the selected commercial banks. This thesis is prepared for the Masters of Business Studies Program by undertaking the study entitled “A Study of Investment Analysis of Nepalese Commercial Banks. This Master’s Degree thesis seeks to demystify the development of any country through mobilization of available domestic resources and their investment in various productive sectors.

Throughout my study period, I received generous support and thoughtful advices from Campus Chief Mr. Prakash Singh Pradhan thesis advisor Shankar Dev Campus. I am profoundly grateful for his intellectual suggestions and encouragements. I would like to express my sincere gratitude to my respected teachers as well as, and other staffs of Nepal Investment Bank, Standard Chartered Bank and Nepal SBI Bank for their enthusiastic support and encouragements.

Many of my friends, colleagues and relatives encouraged me to undertake this venture. In course of preparing this research I got an opportunity to discuss and debate with them. I have been benefited from such a dialogue and especially acknowledge the help of Ms. Rachana Manandhar (Nepal Investment Bank) and Ms. Priyanka Ranjit (Branch Manager, Standard Chartered Bank) and Mr. Arjun Nepal (Nepal SBI Bank).

Thank You
