## **ACKNOWLEDGEMENTS**

As the partial fulfillment of the MBS degree, I have prepared this report. During the course, I worked with sincerity, honesty and diligently, as far as possible. But beside my continual efforts, I also got unforgettable support from different people and parties. I am extremely grateful and overwhelmed by their support while completing my work.

Export companies has played very important role for the development of Nepalese market in the rest of the world. It has been providing market to the mainly handicraft products and Nepalese art and culture, some of them are below the cost of production. Export companies has dual responsibility i.e. providing international market and to maintain Nepalese art and culture, making reasonable profit. So, Export companies are selected for this research for viewing present planning premises, existing strength and weakness and possible threats and opportunities within the limitation of the research topic as well as the time and resources availed to me. With best wishing the companies will progress and contribute for the Nepalese market of Nepalese products in the future in a more efficient manner.

Firstly, I would like to express my in-depth gratitude to Dr. Prof kamal Deep Manandhar, Chairperson of Research Department Shanker Dev Campus, for providing me chance to carry-out this research study. I am extremely grateful to my respected teacher and my supervisor of this dissertation Dr. Kd Manandhar and Mr. Kiran Thapa without whose proper guidance and excellence supervision this research report would not have been presented in this form.

I would like to express hearty thanks towards all the members of my family. I would like to thanks all the staffs of sample companies and more specially; Sunita Thapa, Partners and proprietors are the persons to whom I would always be grateful for their valuable suggestions, sincere cooperation and for providing various information for the study.
