ACKNOWLEDGEMENT

It is my pleasure to prepare this thesis under the supervision of my respected teachers Thesis Supervisor Mrs. Sneha lata kafle, Pitri Raj adhikari and Research Department Head Associate Prof. Kamal Deep Dhakal, Shanker Dev Campus, for generous encouragement and kind co-operative by providing invaluable suggestions and good guidelines during of my entire research work. This form of the report is the outcome of their continuous encouragement, helpful suggestions, and good comments. I wish to extend my thanks to my respected teachers of the Shanker Dev Campus, for providing me the invaluable information, suggestion, as well as comment for the necessary points.

I would like to thanks all of my seniors whose previous thesis, articles, and books play vital role to complete this research work.

I am also grateful to Nepal Rastra Bank for providing me the valuable information and necessary data and other all the staffs of Library and administration of Shanker Dev campus as well as central library of Tribhuvan University. I am also grateful to all the NRB staff Baluwatar Branch, Kathmandu.

I also extend my hearty thanks especially to my parents and all of my family members as well as to my friends for providing me valuable suggestions and good caring.

It was a novel experience of doing a thesis work, which certainly helped me to gain deep knowledge in the subject. However, accomplishment of the objective was not easy. The foremost difficulty was the scarcity of data and information, which I experienced as the most difficult work during any type of research study in Nepal. Nevertheless, it was a pleasant feeling to accomplish the thesis report finally.
