ABSTRACT

The title of the study, "Social inclusion and issues of livelihood" A case study of Badi community of Dododhara VDC 7 Kailali. Nepal a country of unity in diversity consists 104 caste and ethnic groups as well as 61 indigenous groups. Most of these groups are economically poor and marginalized as well as under the crisis of extinction due to insurmountable influence of westernization and modernization..

In this study analyzes examines and reveals the social inclusion and its importance for livelihood and impacts of Dalit community. As well as identifies constraint and opportunities to promote and empower the Dalit community (especially Badi community) in sector of rural development and National development of Nepal, including significant meaning of to development experts and planners. The problems and prostitution profession which is seen in Badi community in very long time and relation with livelihood could be interesting with for rural development research work. Thus this study reveals the pristine scenario on the changing pattern and trend of living status of Badi community of Dododhara VDC in Kailali

In the study the general objectives are examine the socio economic and cultural status of Badi community. Analysis' there living standard, family size, situation of settlement and related sector which are current issues of Badi community and their present profession.

As for research methodology for this study, mainly descriptive research design and explanatory research design, has been used to gather both qualitative and quantitative data on Badis profession and livelihood and problems of women, children and their housing style in settlement.

Find observation and study Badi community has so many problems. In current time their burning issues of food, accommodation ,cloth .etc directly and indirectly depended their long time other problems are as untouchability ,commercial sex work ,exploitation of sexually transmitted diseases ,citizenship ,health ,education permanent settlement ,employment and social integration etc .Mainly family do not have food security and low age girls have psychology pressure about their future .
