Acknowledgement

This study is mainly concerned with an analysis of role of income tax in Government revenue generation in Nepal. Various research and studies have been made in the income tax related field. Seeing the lack of the study in collection of income tax revenue in details, this study is mainly concentrated on the strategic role of income taxation for revenue collection in a more specific way.

I am extremely indebted to my supervisor Dr. Kamal Deep Dhakal, professor of Shanker Dev Campus, Tribhuvan University for his generous encouragement and undertaking of the supervision of my entire research work. This form of the report is the result of his continuous encouragement, many helpful suggestions and comments.

I wish to express my appreciation to C.A Chhetra Goptal Pradhan and Mr. Naba Raj Burlakoti of Prime International Academy for their suggestions and comments. Likewise, all respondents are thankful for their suggestions and responding my questionnaire.

Similarly, I am thankful to my colleague Mrs. Neena Shrestha for her cooperation, inspiration and encouragement.

Lastly, my thanks go to my family members for their help in many ways.
