ACKNOWLEDGEMENTS

This research study "*STOCK PRICE MOVEMENT OF COMMERCIAL BANKS IN NEPAL*" which is a partial fulfillment for the Degree of Master of Business Studies (MBS) under the course designed by the Faculty of Management, T.U., is based on the prescribed research format involving the use of qualitative and quantitative model to explain the relationship between interest rates prevailed in the Nepalese Financial Market and their determining factors. Since, there was lack of such study relating to interest, it is hoped that this study will add one brick on the wall and will be beneficial to other researchers, students and teachers rate and their impact on prevailed interest rates taking the views and experiences of various activities.

This study has been completed with the help of various people. I am fortunate to acknowledge my respected supervisor **Mr. Bishnu Gopal Khimbaja**, Patan Multiple Campus whose guidance have proved me with an insight in the field on money market. It would not have been possible for me to complete this research work without his supervision, advice and direction.

My thanks also go to the staffs of Patan Multiple Campus.

Samoni Joshi
