POKHARA, NEPAL**

**CERTIFICATE**

This is to certify that Mrs. Narshova Poudel, student of academic year 2063/2065 with Exam Roll No. 480558, Campus Roll No. 212/063 and T.U. Registration No. 9-1-48-1848-99 has complete her thesis under my supervision, during the period prescribed by the rules and regulation of T.U., Nepal. The thesis entitled “A Comparative Study of Mathematics Achievement of SLC Result of Kaski and Tanahun Districts of Nepal” has been prepared based on the results of her investigation conducted during the period of 2010-2011 at the department of Mathematics Education, Prithivi Narayan Campus, Tribhuvan University, Pokhara, Kaski. I recommended and forward that her thesis be submitted for the evaluation for awarding the degree of Education.

## **ACKNOWLEDGEMENT**

I want to express my gratitude to the respected supervisor Mr. Gangadhar Poudel, Ass.Lectures of Mathematics Education at Prithivi Narayan Campus Pokhara. His Scholary guidance to instruct and construct this dissertation, “I think”, is the greatest property of this. So I am heavily indebted towards him.

Similarly, in addition to express my gratitude, I would like to extend it to Mr. Narendra Narayan Jha, Head of the Department of Mathematics education and respected Proffessor Dr. Krishna kumar shrestha, Mr. Lok Nath Adhikari, Former Head of Mathematics Education, Ass. Lecture Mr. Bibhab Neupana, Ass. Lecture Mr. Maheshor Pokherel,for their valuable and appreciable comments and suggestions.

I would like to thank to the district Education offices of Kaski and Tanahun District.

Furthermore, I would like to thank my Husband Mr. Motisagar Adhikari and all my family members for their invaluable contribution to my career development and great patience and encouragement during my study.

Finally, my obligation goes to Principle and all staff of Chhabdhi Higher Secondary School for their suggestion and co-operation for preparing this research work.

Lastly, I must extend my heartly thanks to my brother Mr. Mahendra Paudel who help me by typing and formatting this thesis with great comments and suggestions. It will be my great debt to him forever.

Narshova Poudel.

## ABSTRACT

This research was carried out in Kaski and Tanahun districts both representing the hilly area but kaski is the one of the biggest city of Nepal and Tanahun is neighbouring district of Kaski, backward district in comparison to Kaski. This research was done for the mathematics achievement of those regular students, who appeared in SLC examination from 2061 to 2065. All the students are categorized accordingly to different variables such as gender (boys and girls), area (Rural and Urban) and caste (Janajati and Gair-Janajati). The number of boys and girls students from rural area and urban area and Janajati and Gair-Janajati are respectively 450 and 450, 300 and 300, 280 and 300 from Kaski . Similarly, above variable are measured as 450 and 450, 400 and 400, 300 and 300 from Tanahun district respectively. This research was carried out considering marks scored by the regular students in compulsory mathematics is SLC examination from 2061 to 2065. Secondary data were collect from related schools and District Education Offices of Kaski and Tanahun.

On the basis of achievement test scores after analysis and interpretation based on the above data the researcher found the following findings.

- i. Significant difference in mathematics achievement has been inspected between all variable (boys and girls, urban and rural, Janajati and Gair-Janajati) of Kaski.
- ii. No significant difference in mathematics achievement has been inspected between all variable (boys and girls, urban and rural, Janajati and Gair-Janajati) of Tanahun.
- iii. No significant difference in mathematics achievement was found in Boys students, Girls students, Rural students, Gair-Janajati students between Kaski and Tanahun districts. But other variables, have significant difference in achievement of SLC results in mathematics students between Kaski and Tanahun districts.
- iv. Significance different observed between the students of Kaski and Tanahun while comparing them as a whole.
- v. By using ANOVA test, it is found significant difference between the achievement of each variable and between the each yearly result of these variables of both Kaski and Tanahun.

## **CHAPTER ONE: INTRODUCTION**

1.1 Background	1
1.2 Statement of the problem	6
1.3 Significance of the study	7
1.4 Objects of the study	9
1.5 Students of Research Hypothesis	10
1.6 Statements of statistical Hypothesis	12
1.7 Limitation of the study	15
1.8 Definition of the Terms	15

## **CHAPTER TWO: REVIEW OF RELATED LITERATURE** 16-18

## **CHAPTER THREE: METHODOLOGY** 19

3.1 The design of the study	19
3.2 Population	19
3.3 Sample of the study	19
3.4 Data collection and Analysis	20

## **CHAPTER FOUR: ANALYSIS AND INTER PERTATION** 21

4.1 Kaski District	21
4.1.4 Students Gender and Achievement	21
4.1.2 Comparison of Mean Achievement Score of Students by Rural and Urban Area of Kaski	23
4.1.3 Comparison of Mean Achievement Score of Students by the Caste Factors (Janajati and Gair-Janajati) in Kaski	25
4.2 Tanahun District	27
4.2.1 Comparison of Mean Achievement Score in Mathematics of Male and Female Students in Tanahun District	27
4.2.2 Comparison of Mean Achievement Score in Mathematics of the Students of Rural Area and Urban Area in Tanahun	28
4.2.3 Comparison of Mean Achievemnet Score in Mathematics of the Janajati Students and Gair-Janajati Students in Tanahun Districts.	29
<b>4.3 Comparison Between District Achievement</b>	<b>31</b>
4.3.1 Comparison of Mean Achievement Score of the Male Students of Kaski and Tanahun Districts	31
4.3.2 Comparison of Mean Achievement Score of the Female Students of Kaski and Tanahun District	32
4.3.3 Comparison of Mean Achievement Score of the Students from rural area of Kaski and Tanahun Districts.	34
4.3.4 Comparison of Mean Achievement Score in Mathematics of the Students from Urban Area of Kaski and Tanahun District	35
4.3.5 Comparison of Mean Achievement Score in Mathematics of the Students of Janajati Students of Kaski and Tanahun Districts.	37

4.3.6 Comparison of Mean Achievement Score in Mathematics of the Students of Gair-Janajati Students in Kaski and Tanahun Districts	38
4.4 Comparison of Mean Achievement Score in Mathematics of Total Students of Kaski and Tanahun Districts.	40
4.5 Comparison Between the Achievement of Student in Each Independent Variable and Each Year's Result by ANOVA	40
4.5.1 Kaski District	43
4.5.2 Tanahun District	43

## **CHAPTER FIVE: SUMMARY, FINDINGS AND RECOMMENDATION**

5.1 Summary with Findings	46
5.2 Conclusion	47
5.3 Recommendation and Suggestion	48
<b>Reference</b>	<b>49</b>
<b>Appendix</b>	<b>51-53</b>

## LIST OF TABLES

Table 1:	Description of Significance test of Mean Achievement of the Boys and Girls in Kaski	22
Table2:	Description of Significance test of Mean Achievement of the Students from Urban and Rural Area in Kaski	23
Table3:	Description of Significance tests of Mean Achievement of the Students from Janajati and Gair-Janajati Castes in Kaski	25
Table4:	Description of Significance test Mean Score of the Students from Rural and Urban Area in Tanahun District	27
Table5:	Description of Significance test of Mean Score of the Student from Rural and Urban Area in Tanahun District	28
Table6:	Description of Significance test of Mean Score of the Students of Janajati caste and Gair-Janajati caste in Tanahun District	30
Table7:	Description of Significance Test of Mean Score of the Male Students from Kaski and Tanahun District	32
Table 8:	Description of Significance Test of Mean Score of the Female Students from Kaski and Tanahun District	33
