T.U. Regd. No.: 22531-95

ACKNOWLEDGEMENTS

This research has been completed by my sole efforts. Many have made contribution in different ways to bring out it in this shape. I am thankful to Tribhuvan University Faculty of Management for providing me such opportunity to experience the practical knowledge of my subject. While preparing this report, I was encountered with different realities and facts of real field.

First of all, I consider it my privilege and fortune to get an opportunity to work under the supervision of Associate lecturer Shashi Kanta Mainali and Rabindra Bhattarai. I am extremely grateful to their courage and advice by providing their valuable time and co-operation. Without their valuable suggestion and time I would not have been able to complete it in this form.

I am grateful to the Campus administrative staff and staff of Shankar Dev Campus library members for their kind co-operation. I am also thankful to all the members of Central library T.U., Nepal Commerce Campus library, Security Board of Nepal library and Nepal Stock Exchange library for their kind co-operation.

Needless to say 'to err is human' and I can not be the exception. I hope the possible errors would be covered by subsequent studies in the future. I hope this study will be helpful for academicians, students, researchers and other interested persons. Last but not the least I am indebted to those who have directly and indirectly assisted me to make this study worthwhile.

Narayan Prasad Dhakal
