ACKNOWLEDGEMENTS

Firstly, I would like to express sincere gratitude to my supervisor **Prof.. Dr. Prem Singh Bisht** Head of Department and I am sure that this study would not have been completed without his continuous encouragement, inspirations, guidance and suggestion.

Sincerely, I would like to express my thankfulness to all my teachers and other staffs of CDPS.

Likewise, I would like to thank all the staffs of central library at Tribhuvan University and CDPS for providing me necessary materials.

Similarly, I would like to remember to the respondents of Uurlabari VDC, Ward No. 6, Morang District whose helps played a great role to complete this dissertation.

I would like to express my heartily gratitude to Mr. Durka Man Maharjan of Durka Computer System, Kirtipur, Kathmandu.

My special credit goes to my family for their contribution of various aspects so, I have become successful to stand in this stage.

ABSTRACT

This study on "Domestic Violence Against Women: A Study of Uurlabari VDC Ward No. 6 Morang District," was carried out by using the primary data collated in the field survey. The field survey covered selected ward no. 6 of Uurlabari VDC of Morang and 135 married women are selected under the systematic random sampling.

The main objective of this study is find out the extend of domestic violence on the basis of different demographic and socio-economic status, to examine the knowledge and awareness of women on legal provision, to identify the causes and eliminate of domestic violence.

The study population includes on married, widow, divorce and separated women.

In the study, it is found that Domestic Violence is heavy to the women not having children, Divorced women, married women, uneducated women, Dalit women and housewife women.

According to field survey, out of total respondents, 98.5 percent knew about domestic violence against women and 92.6 percent women are victim of domestic violence with their family member. The status of women's legal right and community based organization is poor.

In the study, 86.7 percent said awareness, 10.4 percent said improve women status and 3.0 percent said punished perpetrators to eliminate or to reduce DV.

The research entitled Domestic Violence Against Women exposes the situation of the women living in the research area where the condition of women is poorer than that of the male in each aspect of their life.
