ACKNOWLEDGEMENT

The completion of this thesis has been possible with the tireless directives, guidance and assistance from many helping hands sitting behind the curtains.

Though not possible to remember all of them, it will be my greatest pleasure to acknowledge those precious “pearls” that I can’t forget at any cost.

At first, I consider it my privilege and fortune to get an opportunity to work under the guidance of Lecturer Dr. Ramji Gautam. I am extremely grateful to him for his supervision, thorough and in-depth constructive criticisms and invaluable suggestions in completing my research work successfully. I am also very much thankful to Coordinator Mr. N.R Pandey and Campus Chief Kapil Dev Lamichhane for their professional advice.

I am owe an indebtedness to all those writers, researchers and scholars whose writing have provided me the necessary guidance and valuable materials for the enrichment of my research paper in all possible ways.

At this moment, I wish to thank to the officers of security Board of Nepal (SEBO/N) as well as Nepal Stock Exchange (NEPSE) for its support by providing literature of relevance.

Let me offer my profound gratitude to my family member especially brother Nimesh Karki, friend Bishnu Mani Adhikari and Prabha Gyawali for constant inspiration and encouragement for all time.

Needless to say ‘to error is to human’ and I cannot be the exception. For any remaining errors in this calculation and the description reported in this dissertation are, of course, entirely my responsibilities. I hope the possible errors would be covered by the subsequent studies in this field in the future.

Finally, I am hopeful that this pain- staking task will serve as a stepping stone to the students of business studies and to those who wish to make further researches under this topic. Last but not the least, I express my sincere gratitude to all the staff of Central Library Kirtipur and Bhairahawa Multiple Campus, Bhairahawa for their cooperation and encouragement throughout the preparation of this report.
