## ACKNOWLEDGEMENTS

This study has been prepared for partial fulfillment of the requirement for the master degree in business studies. It is my privilege to complete this thesis entitled "**SHARE PRICE BEHAVIOR OF SOME LISTED COMMERCIAL BANKS** (With Special Reference to Listed Commercial Banks in NEPSE) "which analyzes the share price behavior of some leading commercial banks of Nepal.

This study is mainly based on secondary data which were collected from the related banks and other related institutions such as NEPSE, SEBON etc.

During the research work many individuals have supported me. First of all, I would like to express my hearties gratitude and sincere thanks to my thesis honorable supervisor Dr. Kamal Das Manandhar and Mr. Indra Sharma, who encouraged me from the very beginning to the completion of this task with his scholar guidance and profound comments and suggestion. Without their efforts and regular supervision this thesis work would not come out in this shape. I am also extremely indebted to all the teachers of Shanker Dev Campus, who encouraged me in my entire academic attempt.

I must not forget to thanks the concerned official of the related banks, the concerned officials of Nepal Securities Board and librarians of Shanker Dev Campus, Central Campus and other libraries for providing me the related data and without their cordial cooperation, this work would have been very difficult for me.

I express my heartfelt gratitude to my family who always inspired me to complete this journey of higher education from the benchmark of my academic qualification that I had. Without their encouragement and inspiration my higher education could not have been fulfilled.

Lastly but not the least, I would like to express my sincere gratitude to my colleagues who had inspired me during entire period of my study.

Sanjeeb Silwal
