ACKNOWLEDGMENT

The researcher would like to give especial words of thanks to her advisor Asso. Prof. Dr. Shilu Manandhar Bajracharya Shanker Dev Campus, for her support right from the conception of the thesis. Her comments and suggestions were useful in improving the quality of the thesis. It is a matter of great honor and pleasure for me to express my profound gratitude for her kind supervision and valuable comments. I think, without her valuable suggestions, this study would not have got its present shape.

In addition to her, the researcher would also like to thank Prof. Bishweshor Man Shrestha, Head of Research Department, Shanker Dev Campus, for his constant inspiration and valuable suggestions. Besides him, I am highly indebted to the personnel of NABIL and NIBL for providing me the secondary data, without which the research was impossible. Thanks are also due to the shareholders and depositors of NABIL and NIBL for enthusiastically answering the questionnaire.

My deepest thanks are due for my parents for their support, encouragement and believe that I could do anything that I put in my mind. I am also thankful to all my friends, who have supported me, helped me and prayed for me throughout my academic career.
