ACKNOWLEDGEMENT

This thesis entitled “*Internet Banking in the Context of Nepalese Commercial Banks*” has been prepared in partial fulfillment for the Degree of Masters of Business Studies (MBS) under the supervision of Ruchila Pandey, Reader of Shanker Dev Campus.

On behalf of the thesis, I want to extend my gratitude to all who help me in the preparation of this research report. Special thanks to respective head of the research department and thesis supervisor Ruchila Pandey, Reader for her final and valuable suggestion to prepare this thesis.

Last but not least, I am indebted to all the authors whose Books, Journals and Thesis have been consulted during the preparation of this Thesis and all the staffs of related commercial banks and all of my friends for their valuable suggestions, guidance and providing me the necessary data and information regarding this research.

It was a novel experience of doing a thesis work which certainly helped me to gain deep knowledge in the subject. But accomplishment of the objective was not easy. The foremost difficulty was the scarcity of adequate data and information, which I experienced as the most difficult work during any type of research study in Nepal. Nevertheless, it was pleasant feeling to accomplish the thesis finally.

Thank You!

Mahesh Pradhan
Researcher
