ACKNOWLEDGEMENT

This dissertation entitled "Life Cycle Rituals Among Ruchang Magar In Nawalparasi: A Case Study of Change and Continuity in Marriage," is undertaken as the partial requirement for the Master's Degree in Sociology/Anthropology. This work will be incomplete without acknowledging the contribution of the several kind-hearted co-operatives and deserving individuals.

So far as I am aware, this study is the first kind of dealing with Magar community and their marriage pattern field in Ruchang V.D.C. Nawalparasi. Obviously, new research initiates new complications. However, the task would have been very difficult in the absence of magnificent guidance, moral support and helpful comments from Mr. Bishwokalyan Parajuli, Associate Professor of the Sociology/Anthropology of Prithwi Narayan Campus, my thesis supervisor. He provided me sincere encouragement and intellectual guidance.

I greatly express my thanks to respectable teachers Mr. Amrit Kumar Bhandari, Mr. Janardhan Thapa and all the respected teachers at the Department of Sociology/Anthropology, Prithwi Narayan Campus and the department itself for their moral support and suggestion without whom I probably wouldn't have taken first step towards preparation for this study. Similarly, a special thanks goes to my friends Mr. Rul Bahadur Ale Magar, Mrs. Purnima Ale Magar and Miss. Maya Gurung who provided me with valuable and essential encouragement for this study.

I would like to express my sincerest gratitude to Nepal Magar Association, Magar Studies Centre and all of those respondents, who helped me for collecting data.

Lastly, I express my heartfelt thanks to my family members for their unselfish support, suggestion and encouragement.
