## ACKNOWLEDGEMENT

This thesis, “**Rights Share Issue Practice in Nepal**” has been prepared as a partial fulfillment of requirement for the Master Degree in Business Studies, MBS. In this research, I have tried to explore the rights share issue practice in Nepal and its impact on share price. As there are not many researches on rights share, this study will be an important resource for future researchers.

This research has been made possible through the direct and indirect cooperation of various persons for whom I wish to express our appreciation and gratitude. First of all, I would like to express my sincere gratitude to Mr. Hari Prasad Pathak for his direction and supervision to complete the research. I would also like to thank the staff of Nepal Stock Exchange and Security Board of Nepal for providing me valuable information and suggestions. I am indebted to all the authors whose books have been consulted during the research. Those books provided valuable guidelines to conduct the study.

At last, I would like to thank my friend Mr. Rabin Ghimire for his suggestion and ideas that helped me to complete this research successfully. I would also like to thank all those persons whose direct and indirect help remained vital in the completion of this research.

Dhanesh Giri
