ACKNOWLEDGEMENT

This study knowledge/attitude and practice on Tuberculosis of tuberculosis patients of DHO, DOTS center Kaski has been undertaken as a partial fulfillment of requirement for master degree of arts in sociology/anthropology. First of all I would like to express my thanks to the Tribhuvwan University faculty of Humanities and social science, Prithivi Narayan Campus for providing me this opportunity. Through out the challenges and reverse of this research, many people have been invaluable source of support and inspiration. It is not possible to name them all. I should acknowledge all of them for their invaluable and sincere help. I wish to express my deep gratitude to the following individuals and institution.

I express my great appreciations and indebtedness to Mr. Janardan Thapa, the Asst. lecturer, Department of Sociology and Anthropology, P.N.C, Pokhara for providing regular guidance and encouragement. I extend my sincere thanks for Dr.Bishow Kalyan Parajuli, Head of Department for giving me the opportunity to conduct study and help for the completion of the study.

I express my great appreciation to Dr. Sarat Chandra Barma, Director of Regional Tuberculosis Center Pokhara, and Jhalak Subedi, Chairman of DHO, Kaski who allowed me to conduct this study in DHO DOTS center, Kaski. Likewise, I would like to extend my gratitude to Dr. Mohan Kumar Parsai, Senior Medical Officer of Regional Tuberculosis Hospital, Pokhara, for providing related literature and articles in my research. I want to express my thanks to all the staff of Regional Tuberculosis Center, Pokhara and Basanta Bhattra, DTLA DHO, Pokhara, who supported in my research.

I would like to express heartiest thanks to Mr. Dipesh Bahadur Basnet, Mr. Deepak Basnet and Mr. Bijay Thapa who assisted me

almost all time during the research. I would like to express thanks to all the informants for their valuable time and response.

I am thankful to my family member whose encouragement and love sustained me throughout my study, especially in completing the research project. I am very grateful to my brother Mr. Prakash Thapa for typing, formatting and computer printing and designing the manuscript.

TABLE OF CONTENTS

CONTENTS	Pages
Table of contents	
Abbreviation	
List of tables	
List of Figures	
CHAPTER I: INTRODUCTION	1-9
1.1 Background	
1.2 Statement of problem	
1.3 Objectives of study	
1.4 Significance of study	
1.5 Limitation of the study	
1.6 Conceptual Framework	
CHAPTER II: LITERATURE REVIEW	10-19
2.1 Theoretical overview	
a) Medical sociology	
b) Concept of health	
2.2 History of tuberculosis in Nepal	
2.3 Tuberculosis as a social disease	
2.4 Review of previous study	
2.5 Why TB is still a problem?	
2.6 Who gets TB?	
2.7 How does TB disease develop?	

CHAPTER III: RESEARCH METHOD

20-22

- 3.1 Research design
- 3.2 Study area
- 3.3 Census/ Universe
- 3.3 Nature and source of data
- 3.5 Primary data collection
 -) Interview schedule
 -) Observation
 -) Pre-testing
- 3.6 Data presentation and analysis

CHAPTER IV: DEMOGRAPHIC AND SOCIO-ECONOMIC BACKGROUND

23-32

- 4.1. Age and sex of Respondents
- 4.2. Marital status of the Respondents
- 4.3. Religion composition of the Respondents
- 4.4. Cast / ethnicity of respondents
- 4.5. Educational status of respondents
- 4.6. Occupation of the respondents
- 4.7. Annual income of tuberculosis patients
- 4.8. Land ownership of Respondents (his/her family
- 4.9. Family size of Respondents
- 4.10. Annual income of Respondent's family

CHAPTER V: KNOWLEDGE AND ATTITUDE ON TB

33-42

- 5.1. Knowledge on TB before suffering from TB
- 5.2 Local name of TB
- 5.3 Cause of TB
- 5.4 Signs and symptoms of TB

- 5.5 Transmission of TB
- 5.6 Diagnosis of TB
- 5.7 Curability of TB
- 5.8 Methods of treatment
- 5.9 Duration for medication of TB
- 5.10 Prevention of TB
- 5.11 Information to the family about sickness (TB)
- 5.12 Reason behind not informing family about sickness (TB)
- 5.13 Information to friends/neighbors about sickness (TB)
- 5.14 Reason behind not informing friends/neighbors about sickness
- 5.15 Risk of infection
- 5.16 Reason of risk of infection

CHAPTER VI: CARE SEEKING PRACTICE

43-48

- 6.1 Time Period of illness
- 6.2 Signs and symptoms of illness
- 6.3 Duration taken for first treatment
- 6.4 Place of first treatment
- 6.5 Advisor for first place of treatment except TB hospital
- 6.6 Status of recovery at first place of treatment except TB hospital
- 6.7 Reason behind approaching TB hospital
- 6.8 Reason behind not approaching TB hospital initially
- 6.9 Advisor to recommend TB hospital

CHAPTER VII: PERSONAL CARE PRACTICE OF TB PATIENTS

49-55

- 7.1 Regular use of medicine
- 7.2 Precautions during sneezing/ coughing
- 7.3 Ways of precautions while coughing/sneezing
- 7.4 Reason behind not taking precautions while coughing and sneezing
- 7.5 Habit of drinking alcohol

- 7.6 Habit of smoking
- 7.7 Timely checking of sputum
- 7.8 Involvement in difficult task after medication
- 7.9 Consumption of dietary food after starting medication
- 7.10 Reason behind not taking dietary food
- 7.11 List of dietary food

**CHAPTER VIII: SUMMARY, CONCLUSION AND
RECOMMENDATION**

56-61

- 8.1 Summary of findings
 - 8.1.1 Demographic and Socio-economic condition of respondents
 - 8.1.2 Knowledge and Attitude on TB
 - 8.1.3 Care Seeking Practice
 - 8.1.4 Personal Care of Practice of TB patient
- 8.2 Conclusion
- 8.3 Recommendation
