## **ACKNOWLEDGEMENT**

The co-operatives of developing country have much more responsibility than those of a developed country as the money and capital markets are not well developed. It is also an accepted fact that the non existence of well developed sector together with the characteristic of low saving also insist on the increasing scope of co-operative. What the country needs present is the institutional development through the efforts of the co-operatives will incomplete. As such this study is an attempt to visualization how far the Navajeevan Co-operatives is undertaking measure to over come this problem and also I have given some suggestions if followed property can help in the successful mobilization of deposits.
