ACKNOWLEDGEMENTS

"Knowledge is the power", the proverb is true only when we apply the knowledge in our practical life for better living and development. For this purpose, theoretical knowledge assimilated with practical experience is very important and this research study is also an attempt to put into practice all those knowledge acquitted during the study of MBS level academic courses.

As this research study was conducted in partial fulfillment of requirement for the degree of Master of Business Studies (MBS), it may lack some features of professional research study but it is full of important elementary information on Financial performance of Selected Four Insurance Companies for five years (F/Y 2003/4 to 2007/8) which includes Himalayan General Insurance Company, Premier Insurance Company, Everest Insurance Company and Neco Insurance Company and standard research methodology.

I wish to extend my deep sense of indebtedness to Mr. Baburam Singh Thapa, my thesis supervisor, who provided me valuable guidance, insightful comments and generous treatment to complete this thesis. This work has not been come out in the present form without his inspiration, valuable suggestions and guidelines. Similarly, I would like to express my thanks to all my friends who inspired me to do some research study in this topic. I am grateful to all those, whose ideas, work, cooperation and suggestions helped me in completing this study.

Finally, I wish to extend my sincere gratitude to all the persons who helped directly and indirectly in course of completion of this research study work

Thank You,

.....
