## ACKNOWLEDGMENT

This Thesis entitled "perception on Climate Change and the Changing Livelihood Strategies of majhis of Baglung" is prepared for the partial fulfillment of the requirement of the Master's degree in Sociology. To prepare this thesis along with my long effort the supervision, inspiration, encouragement and assistance of my respected teachers, friends and relatives have contributed a lot. In this regard first of all, I want to express my heartfelt thanks to the Central Department of Sociology for providing me an opportunity to write this thesis work. I am extremely grateful to my respected supervisor, Dr.Tikaram Gautam for his inspiration, scholarly suggestion and excellent academic guidance to carry out this thesis. I am equally indebted to my respected teachers and thankful to the staffs of the department.

I am heartily thankful to the Majhi people for their kind cooperation during field survey. The thesis would not be completed without their help. I am equally thankful to the valuable assistance of Hari Poudel and Amrit Poudel during survey without their help the task would have been very difficult.

I want to express my honor and sincere gratitude to my respected parents; Tilak Prasad Sharma and Hira Devi Sharma for their continuous encouragement without whose support I could not have been able to complete this thesis. I cannot forget the help and cooperation from my brothers; Kushal Sharma and Sushil Sharma.

I acknowledge the help of staff of central library, Department of Hydrology and Meteorology and other institutions. I would like to express my thanks to those who directly or indirectly helped to accomplish this task. The suggestions and help from my friends Dipak, Shiva, Gokul, Santosh is highly appreciated. I remain, however solely responsible for any shortcomings and errors that may crept in this undertakings.
